Synopsis

Learning to read a language with a foreign alphabet can be an intimidating challenge. Even before you can start to study the vocabulary and grammar, you must first decipher this strange new script. But learning a new alphabet does not have to be so difficult. Other language courses start by showing a table of the alphabet and then immediately proceed to dialogues and grammatical descriptions. This is not the ideal way to teach a foreign alphabet, and this approach causes many students to get frustrated and give up before they start. Instead of that approach, Learn to Read Ukrainian in 5 Days teaches each letter of the Ukrainian alphabet in a systematic way while providing enough practice along the way to ensure the student learns the entire alphabet. With this system you will be able to read the Ukrainian alphabet in only 5 days or less! In addition to the alphabet, this course teaches more than 150 real Ukrainian words that were carefully selected to be of maximum benefit to beginning language students. These are the words that you need right away. Order a copy of Learn to Read Ukrainian in 5 Days today and start to enjoy the Ukrainian language and culture in a way that only reading the language makes possible.

Customer Reviews

It was an absolutely non useful book for me.

Exactly what I was looking for! This book makes learning Ukrainian super easy. It’s easy to understand and I love how it gives you little quizzes after each section. That was really helpful. After

looking on websites and watching videos and not finding something simple enough for a guide, this book is it. I am so happy I found this because it has helped so much and after one day I am already doing much better writing in Ukrainian. I would recommend this to anyone who wants to learn Ukrainian.

Excellent product.

Very good starting place.

Excellent little book! Anyone interested in learning Ukrainian should have a copy of this small text on hand. Only 42 pages but each one alone worth the price of the book.

Very easy to learn. I highly recommend it.

I like the book very much. It would be nice if they had a actual paper version, but overall, it is a good book.

Very helpful
