Customer Reviews

I am a fan of paranormal romance books, but have been getting tired of the same predictable story line. I have also been getting overly annoyed with the multitude of grammar and spelling mistakes

included in those books (seriously authors, spell check and grammar check was invented for a reason)! Then along came this breath of fresh air! The Vampire Girl series can be described in one word...phenomenal! Aside from the fact that it is written by a husband and wife team, (who apparently can work together without choking each other, which is an amazing feat) this series is immensely different from other books in the genre. This book especially has many unpredictable twists and turns that keep the reader engaged in the story. The characters are very likeable and well developed, even though the budding relationship between Fen and Arianna seems to be skimmed over. The reader does get the point without all of the redundant, over written, babbling that most other authors write into the minds of their main characters. Karpov Kinrade does an excellent job proving that they don't need all of that "filler" crap in their books to make them enjoyable. The action alone fills up the pages! Oh, I also wanted to say that I, for one, am now wishing that baby dragons were real! Really, who wouldn't want Yami on their shoulder?! Read this series! You'll love it!

Okay, so I purchased the first book months ago and delayed in reading it until yesterday. I finished it yesterday. I bought the second book yesterday and also finished it. I was worried that the second book wouldn't live up to the magic and spectacular wonderfulness of the first one, and I can happily say that it absolutely did. We got to see more of the princes, which was a huge plus of course. I'm so glad I got to see more of Asher and understand more about him. It was nice to see him and Ari bond. I love Fen. I really do. And I love what he and Ari has together. I love his protectiveness of Ari and look forward to seeing more of it in the future. I don't want to spoil anything, so I should probably end this review soon. If you enjoyed the first book, then DEFINITELY give this one a read. These authors are really fantastic. And boy, do they know how to end a good book, and leave you wanting more. I can't WAIT for the third installment. I only hope that the third one is a bit longer, although I'll be happy either way, and will take what I can get!

Wow! The second book in this series did not disappoint! Continuing on with Ari's story, well not only Ari's, but Fens and the others has brought to light the truth that has been concealed...we have learned a lot about the true origins of princess Ari and just learned a lot of awesomeness lol! I'm sad I have to wait now for the third book! I am loving this Series!!

New from Karpov Kinrade author of the amazing Nightfall series, and sequel to USA today's top hundred best seller Vampire Girl comes *Midnight Star*!! If you've read the first book and think the story could not get more terrific then you were wrong in the best way!!! I could not say amazing

enough times in this review to explain this, however I will still try!! Arianna has been thrust into another world known as Inferena (known to us as Hell) and gained the responsibility of deciding this worlds next king in order to save her mothers soul!! Despite many unpleasant actions and surprises along the way Ari seems to take this responsibility in stride amazing more than one Prince of Hell in the process as well as stealing a heart along the way! That's just the beginning for this amazing young woman as she unravels a part of her life that changes the whole world for her! Trapped in between to warring forces she must decide who to side with if she cannot make peace happen first, while making new and powerful friends along the way! This is a must read for all fantasy, action and romance lovers! The story line is top of the line along with amazing characters that will have you falling in love and screaming in hatred as you get to know them!

Midnight Star is an incredible sequel to Vampire Girl. Once you read the first book you will want to read the next book right away. I know I did. The characters are so well developed and the story will draw you in right from the beginning. It has lots of action, suspense, romance and so much more. It is a real page turner. I can't wait to see what happens with the rest of this series!The story pretty much picks up where Vampire Girl left off. Ari knows who she truly is and wants to find a way to make peace between the Vampire, Fae and Shades. She is spending her month with Asher but as things happen they don't always turn out the way she would like. There is a war about to start that Ari doesn't want to happen. There are still those out there who will do anything to destroy her and those who just want to protect her at any cost.I love Ari and Fen's relationship and their love for one another. Ari knows that Fen doesn't want to be king but she must choose one of the princes to be the new king. I also really like Asher, he is funny and mysterious in his own way. We haven't really had a chance to get to know the other princes yet which I am looking forward to. I love Yami too, he is so cute and adorable.So much exciting turn of events happen throughout the story. The ending will shock you with the cliffhanger it leaves. My mouth dropped and I sat stunned for a few minutes after finishing the book. I will be continuing on to reading book three because I have to know what happens next. I recommend it if you love stories with Vampires and or Fae you will love this series!
