In-Line Skating! Get Aggressive (Extreme Sports Collection)

Synopsis

Accelerated Reader is a program based on the fact that students become more motivated to read if they are tested on the content of the books they have read and are rewarded for correct answers. Students read each book, individually take the test on the computer, and receive gratification when they score well. Schools using the Accelerated Reader program have seen a significant increase in reading among their students. These new middle school titles are a valuable addition to any library.

Customer Reviews

Gr 5-8-These books all begin with a paragraph explaining the use of the word "extreme," followed by discussions of the history of the sport, the equipment needed to get started, techniques, and safety considerations. While the series title implies that these books would be most appropriate for advanced and aggressive practitioners, they do offer information for beginners. The well-placed, full-color photographs include many action shots that create a fluid movement of their own. All of the titles have lists of books, magazines, videos, related Web sites, and camps and competitions. They are more detailed and for a slightly older age group than the "Radical Sports" series (Heinemann Library).-Rachel Fox, Port Washington Public Library, NY Copyright 2000 Cahnners Business Information, Inc. --This text refers to an alternate Paperback edition.

"The boys in my library have been reading this series during their study halls and their response has been overwhelming . . . written in a conversational tone full of helpful, interesting information. There

are plenty of other books on these subjects, but they lack the hip layout of text and photography that first draws the readers to this collection. . . . Should be a hit in any middle school library. HIGHLY RECOMMENDED!" --This text refers to an alternate Paperback edition.
