Founded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.

It is made from a thin plastic which makes it durable, rip resistant, won't fall apart in the rain and long lasting. It is easy to read and understand. I like it. It is much better than a paper map.

This is a great replacement for a map of Vietnam that I have been using for the last seven years. I'm real happy with the upgrades like its waterproofing and non tear able folds. I've noticed that more names of towns and villages are listed which helps me keep closer track of my travels. This map can never replace the companionship of my previous one, but I rank it high for trying.

Excellent, detailed map of the country. Permitted me to locate many places of interest.

I used the map whilst in Vietnam and it proved invaluable. Our fellow travellers considered it far superior to maps they had purchased prior to leaving the UK. The same applied to the Cambodia map too, it was so detailed.

Wow. Just got this map in - and its on my wall. Simply, excellent.

"Must have" for anyone wanting to travel to Vietnam. Very Thorough and accurate. Also, because of it's construction, it will not wilt in heat and dampness. First rate!

good for upcoming trip.

The map is two sided which is great, except on one side the ink is so faded the map cannot be seen.
