Customer Reviews

I can't wait to start trying out the recipes listed in the book. I appreciate all the health-related insights shared by the author that is easy to apply & follow. I recommend this book to those who are health conscious like me :)

These recipes are awesome delicious and easy to make. The book has a verity of delicious recipes. I get this book to serve delicious and healthy recipes to serve my family and my family is satisfied as well thanks.

most of the recipes seem good

love it . easy read.

I was under the impression this cookbook would be "whole 30" recipes. There is not a single recipe you can make that is whole 30 approved.

This book actually might be a scam. It advertises as a whole food cookbook, but it is not. The recipes do not follow the dietary restrictions at all. Processed foods, grains, and cheese are in nearly every recipe. The many 5 star reviews on this product appear to be fake, as they don't match what's actually in the book at all. Don't buy this if you are looking for a whole foods or Whole30 cookbook.

I feel like this was a bit misleading, just be warned this is not a Whole 30 cookbook and is not compliant.

I knew that this wasn't the actual Whole 30 whole foods cookbook, but I at least expected that we can agree upon what "whole foods" are. This book is NOT a whole foods cookbook. Most of the recipes call for canned, packaged, frozen or otherwise processed foods. It is not a whole foods cookbook by any stretch of the imagination.
