Keyboarding And Word Processing Essentials, Lessons 1-55, Spiral Bound Version

Synopsis

Note: This is a standalone book, does not include access card. Prepare for academic and workplace success with KEYBOARDING AND WORD PROCESSING ESSENTIALS, LESSONS 1-55, Microsoft Word 2013, 19th Edition. This market-leading text provides the tools you need to develop expertise in keyboarding, document formatting, and essential word processing skills using Microsoft Word 2013. Extra reinforcement, communication skill review, and an introduction to Windows 8 and web-based computing will get you ready for today's workplace. Correlates directly with web-based Keyboarding Pro DELUXE Online (KPDO) software, available separately.

Module 9 Web Apps. Reference Guide. Command Summary. Windows 8. File Management.

Dr. Susie H. VanHuss is a distinguished professor emeritus of the Moore School of Business at the University of South Carolina. She received her B.S. degree from the University of Southwestern Louisiana and her M.B.A. and Ph.D. degrees from Indiana University. Her teaching specialties

include business communications, administrative systems, and personnel management. She is a prolific author (Cengage Learning), with textbooks in communications, keyboarding and word processing, office technology, and administrative management. Dr. VanHuss has experience managing large foundations and has served on the board of trustees of numerous for-profit and non-profit organizations. She is a frequent speaker at state, regional, and national business education conventions and has done extensive consulting and training for industry and education groups nationally and internationally.

Dr. Connie M. Forde is a full professor and head of the Department of Instructional Systems and Workforce Development at Mississippi State University, where she leads undergraduate programs in information technology services, business technology teacher education, and industrial technology, as well as graduate programs in instructional technology. Dr. Forde also continues to advise doctoral students on their dissertation research. Prior to her tenure at Mississippi State University, she was a business teacher at both the community college and secondary levels. She earned her B.S. and M.Ed. degrees in business education from the University of Southern Mississippi and her Ph.D. in higher education from the University of Mississippi. Dr. Forde serves as coauthor of the COLLEGE KEYBOARDING series and a variety of word processing and integrated applications textbooks and simulations. She is a recognized contributor to the professional literature and a speaker at state, regional, and national conferences. Additionally, she has served as president of the National Business Education Association, Southern Business Education Association, and National Council of Pi Omega Pi, and chair of the Foundation for the Future of Business Education.

Donna L. Woo is an instructor and department coordinator for Information Systems/Office Automation at Cypress College and associate director of education at Pacific College. She received her B.A. and M.A. degrees in business education from Michigan State University and earned her Ed.D. from Nova University. Her industry experience includes work for both IBM and General Motors. A respected author, Dr. Woo has written several word processing textbooks and has served as a coauthor on several editions of South-Western COLLEGE KEYBOARDING textbooks.

Vicki Robertson received her M.S. and B.S. degrees in education from the University of Memphis. She currently teaches at the University of Memphis and online for Southwest Community College. She is a member of the National Business Education Association and Southern Business Education Association, and she has served on the executive board for the Tennessee Business Education Association.

Great book and got it for a much better price than I could find locally.

If your professor uses this with cengagebrain you need to buy Microsoft Word 13 for 1-55 or higher \$\$-\$\$\$\$, the book \$\$\$, and if you rent the book you still have to buy a product code for a mere \$60. The three credit course ends up costing you about \$600.00. The book is so not telling you that you that rental and permissions are for six months when the class is for four months, so they justify the cost of the rental because they only have a 6 month rental agreement. The book works hand in hand with one online site from what I have seen and makes it easy for the instructor to get your work. The online rental products do not come with a key code, but they do require you to have a key code for cengagebrain. Other online classes and book don't require such a set up or if they do the cost is 1/2 as much as what I had to pay to get this book in service. The book supports the class objectives so if you have to have this book compare the cost of owning it against renting it and the additional cost of upgrading your software to run the keyboarding program setup.

The book is a great shape. It does explaining a lot of basic keyboarding and tips unfortunately I wasn't informed by the teacher until after that I needed the CD with the access code to be able to use it for class. I was able to save some money by buying this book and the code separately but I wish I would have been informed before. The seller is great and fast.

Is good

Great book, and one that will be a wonderful reference tool. I have 30-plus years of typing experience, but this book was for a required class; however, it will come in handy to those not having the skills that I have.

The book was in good shape but ended up having to buy one that came with a cd. Didn't know there were some books that came with it and some that didn't.

This was a great book, I would totally recommend it to anyone. Yes you do have to buy a cd when using this book with cengage, but the great thing is you can buy that on to for a small price as well.

Not really what I wanted but OK.
