Celestial Yosemite 2018 Calendar

Synopsis

While visitors sleep in their beds and tents, the stars come out to play above Yosemite National Park. This twelve-month wall calendar published along with the book, *Celestial Yosemite*, presents the moon glowing and the Milky Way stretching above world-famous features that appear utterly transformed after dark. Kristal Leonard's ethereal, elegant astrophotographs casts cosmic light onto the singular natural wonder that is Yosemite at night.

Customer Reviews

Kristal Leonard is a visual artist specializing in landscape photography and astrophotography. She has worked extensively in Yosemite, California, her home for more than 17 years. Always fascinated with the night sky, she shares her photos of the night sky with a growing fanbase and collectors.

Nice pictures!

Thank you! Takes me a good while to fill in my calendar. It's a NO FAIL way to keep appts when phones fail or lose data (or get lost, or stolen, or broken, or you make an email address change, or..)

I thought buying a calendar super early was silly, but I got a great deal pre-ordering it and I have to say it was a great buy, I'm already looking at the artwork in the new calendar!

This is a wonderful collection of a very talented photographer's work! I discovered Kristal's photography through an art show in Yosemite, purchased one of her prints from that show and was thrilled when I heard the Yosemite Conservancy was doing a book and calendar of her work!

Perfect
