# Get America Singing... Again! Vol. 1 (Singer's Edition)

## Synopsis

(Expressive Art (Choral)). Community ... use singing to bring people together once again in your neighborhood, home, church, camp, school, club or activity. Plan now to include some audience participation at a concert or other public event. Throw in a song or two at the beginning of a meeting to melt the ice and get communication going. Restore the fun of camp singing next time you gather a group around the fire. Get out the guitar, sit down at the piano, tune up the Autoharp, add a bass, drums, or any other instruments you can lay your hands on, and have a sing-a-long. Developed in association with the Music Educators National Conference (MENC) and other music organizations, this publication contains over 40 songs which represent America's vast and varied music heritage, along with an introduction by America's own Pete Seeger. A portion of the proceeds from the sale of these editions will benefit the national MENC campaign to "Get America Singing ... Again!" Available: Piano/Vocal/Guitar Edition, Singer's Edition, and Singer's Edition (10-pak). For all ages.

## Book Information

Paperback: 48 pages

Publisher: Hal Leonard (April 1, 1996)

## Customer Reviews

Founded in 1947, Hal Leonard Corporation has become the worlds largest print music publisher, representing some of the greatest songwriters and artists of all time. We are proud to publish titles of interest to all musicians as well as music lovers, from songbooks and instructional titles to artist biographies and instrument price guides to books about the music industry and all the performing arts.

I had to buy this for my vocal class as part of my music ed degree, it's still pretty useful after graduation. Though these are simple songs, they're ones you can bust out at a party or a retirement home and everybody could sing along. Little kids love these songs as well, and since most are part of the American culture, they're important to learn from a young age. You might even surprise yourself and go down memory lane while looking through it!

This is Volume 1 of 2. These songs are a must for anyone who wishes to better understand the musical and cultural history of the United States. These songs used to be taught in public school, but that is no longer the case. Make certain your family knows these songs! A very well written collection!

Love this book, as a music teacher it is an ESSENTIAL resource

Cool book, lots of Americana songs complete with lyrics and chords. I didn't realize that this one is pocket book sized, they do sell a full size version.

In great conditon; like all the old songs!

We are using this book to sing around at convalescent hospitals, etc.

These books are great for teaching all those songs we adults know but our middle school kids don't. The format is great: one page per song, melody, words and the chords written above it (most of which have an alternative capoed-guitar key for the transposing impaired). Highly recommended for parents, teachers, and folk song enthusiasts.

Excellent book
