Customer Reviews

JAN GERARDI has illustrated many books for children. Teenie Greenies are the first books she has both written and illustrated. She lives in New Jersey.

this is a sweet little board book. My grandchildren (1, 2, and 3) love it. The pictures are bright, cheerful, and easy to identify. The lift the flap portion is sturdy and my grandbabies all want to see what's under the flap. The rhymes are charming, too, not annoying and not forced.

Thanks

One in the board book series Teenie Greenies, this visually appealing book is ideal for babies and toddlers with its simple rhyming descriptors and sturdy Lift-the-Flap surprises. Because it contains

one and two syllable words, it works equally well for Level 1 Beginning Readers. The drawings are highly attractive, displaying in true colors items slated for the compost heap: Banana, lift the flap, Peel; Apple, lift the flap, Core; Melon, lift the flap, Rind. The quite sturdy construction will defy little fingers from picking apart the cardboard corners or peeling off the lifting flap. And, oh, yes, it includes a simple unobtrusive message of 'going green'.

This is a delightful and fun introduction for toddlers (and their parents) to composting. It's a "lift the flap" book which toddlers adore.
