North Korea Through Photographs: With A Special Section On Dandong, China

Synopsis

The Democratic People's Republic of Korea, the Hermit Kingdom, North Korea: One of the most mysterious and fascinating nations in the world, and visiting it is a once-in-a-lifetime type of trip. This book documents a five day whirlwind tour of all of the sites North Korea wants its international visitors to see and know about. Supervised and restricted the entire time, visitors find themselves being whisked from one monument to the next, all in honor of Great Leader Kim Il Seong or Dear Leader Kim Jeong Il. From the impressive capital city of Pyongyang, to the DMZ in the south and the border city of Sinuiju in the north east, including visits to the Arirang Mass Games, the Children's Palace and the world's deepest subway system, shown here are hundreds of stunning and surprising images showcasing everything this country has to offer. Also included is a special chapter highlighting the interesting Chinese border city of Dandong, where many tours into North Korea begin and end. After purchase of the book, the owner is free to use any of the images as they please, provided appropriate source referencing.

Customer Reviews

The "book" consists of a ridiculous article, which is more of a blog post about the author's inexpensive visit to North Korea. The accompanying photos are nothing new, nothing interesting,

nothing impressive. This book would be a waste of time even if distributed for free.
