Synopsis

In Book Two of The Law of One, the nature of each of the densities or dimensions of this octave of creation is explored in detail with special emphasis given to how evolution for our third density to the fourth density is accomplished. Wanderers, sexual energy transfers, the physics of Dewey B. Larson, Polarization in consciousness, ritual magic, and the nature and function of the Higher Self are all explored as they are related to the Law of One. Don Elkins was born in Louisville, Kentucky in 1930. He held four university degrees, and was a professor of physics and engineering at the University of Louisville and head of the University of Alaska's mechanical engineering department. He served with distinction as the youngest Master-Sergeant in the history of the U.S. Army during the Korean War. In 1965 he left his position as a tenured professor in order to give himself more time for the UFO and paranormal research that he had pursued all of his adult life, and became a Boeing 727 captain for a major airline until his death in 1984.

Fairly new to this subject as a whole. If you are more interested in a light read, this is not the book for you. That said: I am enjoying the series so far. Book one was a bit tough to get through, simply

because it's a.... higher reading. Half way through book two I am pretty much adjusted to the style of speech that Ra communicates in. Though I do keep a dictionary handy on my phone still. The information is delivered in a straight forward manner and I am looking forward to the rest of the series.

I love these books. I want to rush through them to get the information, but you must slow down and digest what is being said. I only read channeled books and this is one of the tops. All of the Kryon books are right there with it. Very useful and positive information. Beware of any channeled info that spews doom and gloom-it is not coming from a Christ Consciousness entity.

It was ok, a very hard read. Mostly because the channeled information was delivered by the entity (Ra) in such a way that I wish the interviewer (writer) would have come to a more concise understand or agreement about the definitions of the terms used. Some of the terms used repeatedly throughout have a different meaning the way we would use it in modern language than the way Ra was using it. In addition some concepts took a while to reflect on and understand but that could be a vibrational awareness thing in which case they will end up making more sense to me once I've raised my frequency. The book was pretty informative and made sense of many things. I'm hoping that the second volume will expand more on this one.

A fan of the series. Had the first book for years and I loved it and finally bought the next two. Book 2 is interesting but nowhere as good as Book 1. There were more interesting details as far as alien civilization, purpose, interaction etc. But if you read Book 1 go ahead and continue your journey.

If you are as I am, a seeker of the love and the light of The One Infinite Creator, if you are Israel (a seeker of God) desiring inner guidance and a clearer understanding of both the purpose of incarnation and a clearer awareness of your self in relation to other-selves then this series is for you. The awakening of spirit within each individual, the spirit of service creator in all it's multitudinal faces, has never been a more pressing more important goal to be attained than it is at this point in our cycle of evolution of consciousness. Truth, pure and white, resonates with the true seeker; there is great truth and understanding in the pages of this book as well as the others of it's series. My deepest gratitude to all those who labored and suffered to give this knowledge to the modern world. Remember: Meditation is the door; Silence is the key. I wish you well on your path.

A book I will keep reading for life! I never fully believed in religion or the Bible or the conventional explanation of God, who we are, why we are here and our possible history in the cosmos. And now all of my childhood and present philosophical questions have truly been answered. I truly believe that we were aided and seeded here on earth by an advanced race and that extra-terrestrial life does exist and that we have been visited in the past and in the present and that we are being guided not by spirit or angels but by an advanced, extra-dimensional beings. If you have similar beliefs and have ever had these questions, this book is a must! It's a bit complex to read and understand but well worth reading slowly and taking in small bits at a time. Astonishing read! I will never view our reality in the same way!

Resonance from the cosmic heart. Read it if you're ready!

Book one was great. I think I had too high if expectations for this one. I'm not sure if I'll get the third one now. Focused a lot on what colors and the relationship it has to your level of polarization to positive or negative. Basically are you self centered or looking to help others. It was good if you like the first one, just not awesome. And a little difficult to follow.
