4.5 Stars WAR by Jennifer Anne Davis was a thrilling conclusion that I absolutely adored. I loved this

series since the first book, and was so pleased with the way it all ended. Some things didn't play out like I hoped they would, but that's to be expected with any good conclusion. But either way, I am so glad I read this series and got to know these wonderful characters. The world-building was phenomenal, this book setting has quickly become one of my favorite genres to read. There's something about historical novels, set with evil kings and a civil war threatening to rise up and devour the evil ensnaring them, that always peaks my curiosity and gets my blood pumping. And this book was no exception too my new favorite genre, that satisfied in more ways than I hoped.

**THE PLOT: REMA:** Rema thought she finally had it all figured out. She thought by standing with her people as their new queen, she would be giving a fresh beginning for them all. She thought she had more time before her life flashed before her eyes, before she was on her way to the gallows, again.... But she was wrong, and now she will never know what would of been, because she is a prisoner on her way to Emperion to be executed only because of the Royal blood that runs through her veins. And there is nothing she can do about it, or is there....? Rema will have to battle the unthinkable to defeat all the evil threatening to tearing her world apart. She has no idea how or even if she will be able to get out of her impending execution in Emperion. And if she walks on that, how she'll ever find the forces and power to defeat them all. But one thing is for certain, Rema is not the same girl who naively and unknowingly walked into this life. She's stronger, faster, and more determined than ever to bring them all down once and for all.

**DARMIK:** Darmik has lost the woman he loves in more ways than one. She was not only his savior, but also the savior of the rebels that he now calls his own people. She was Greenwood Island's last hope of ever defeating his father, the King, and his evil brother, the crown Prince, and restoring the Kingdom to its once glory before his father slaughtered the royal family, missing only the infant baby that is the true heir to the throne, and is also miles away on a ship to Emperion to wait out her execution. Darmik almost lost Rema once to the gallows, he won't lose her again, no matter the circumstance... Darmik's only way of saving Rema is to venture beyond his borders to the Emperion kingdom, where Rema is on her way too. He will have to use his royal name to gain entry with his uncle, the Emperor, and beg for Rema to be returned to him. He will have to become the person he now despises, if he wants to save not only the woman he madly loves, but also the strong queen that will save them all.. But Emperion proves to be more difficult than Darmik ever anticipated, and his Royal blood will not be enough to get him out of this ruse he's concocted. But even if he manages to save Rema from the Emperor, he still has to find a way to defeat his father, brother, and thousands of soldiers that they're sure to have manipulated into turning on him.... Their journey will be long and tedious, but they will all have to endure much if their going to save their queen under duress, and breathe fresh air back into their

kingdom. This book was EPIC, truly amazing!! I loved it so much for so many reasons! This heart-pounding adventure was just the conclusion my heart needed!! I'm just sad this series is over, but thrilled that there is a spin-off series about Rema and Darmik's daughter, which I already have a review copy of, WHOP!! Overall, WAR was a great conclusion that I'm highly satisfied with. I'm excited to continue this series in the fresh eyes of the main characters daughter, and see what other struggles will arise in Emperion and Greenwood Island. I know whatever Davis creates is going to be anything but short of amazing! If you enjoy thrilling historical's, heart-pounding action and adventure, with war and rebellion, and an utterly beautiful romance that will stay with you for a long time, then definitely check out this series, I'm sure you won't be disappointed! NOTE: I received an eBook for reviewing purposes. All opinions expressed are my own and are not influenced in any way!

This book was great! In fact the entire series was wonderful. Highly recommend this to everyone. The plot was captivating and romantic, which is a great feat for a war series.

<http://bookbutterflyreviews.blogspot.ca/> I have reviewed the first two books of this trilogy. The first book is The Key, which you can read [HERE](#), and the second is Red, which you can read [HERE](#). I will have a few spoilers in this review, but I will warn you before you can read them. So first and foremost, if you have gotten this far in the series that means you know the worst part of the first two books. **THE CLIFFHANGERS!** As soon as I finished Red, I had to start War right away. It was already 10pm, and I was tired, and I had to get up early, but I read it anyway because the cliffhanger just draws you back in. I am happy that the end of the third book didn't have some twist and end in a cliffhanger. I thank the Book Gods for this being the last in the series! I don't think my sleep schedule could have taken it. Another love: Nathenek (AKA "Captain"). Every time there was an interaction between him and Rema, I was grinning like an idiot. They were by far my favorite parts of the book. I don't know if I loved him because he was kind of a badass, or because he actually had a sense of honor, or what. What I DO know is that I wanted Rema to throw Darmik out the window and fall into Nathenek's arms so they could live happily ever after. SPOILER: I was thoroughly disappointed when it didn't happen (not that I thought it really would). There was too much foundation between Rema and Darmik to just throw it all out the window. But still!!! I kind of hope to see a spin off series that has Nathenek as the main character; I would love to see the world from his

eyes. BIT OF A SPOILER HERE: Another think I enjoyed was seeing Darmik and Rema together again. As much as I love Nathenek, Darmik has earned my trust at this point and I wanted Rema to get the happily ever after she deserved. I like how accepting Darmik was of Rema's new status. He didn't want either of the crowns for himself, although he could have fought for them. I expected more of an inner conflict about all this new information that was thrown at him concerning Rema, but he didn't even flinch. In the end, all of the tiny things that made Darmik made me accept him as Rema's True Love once and for all. Sorry Nathenek! As a side note, I also loved the fact that Darmik was the Emperor's illegitimate son. It explained so much; mainly why he was treated like crap going up by the man he THOUGHT was his father. It was a interesting and unexpected twist. Now for some of the things I didn't love so much. The biggest issue I had with this conclusion to the trilogy was that it was very rushed. It definitely could have used at least 50-100 extra pages. Additionally, while changing perspectives from Darmik and Rema, I think the timeline gets a little muddled up and if it doesn't, then I was definitely just confused. I had to go back and reread to make sure I understood certain things correctly. Lastly, most of the story takes place in the sandy empire, rather than their home country. I wanted to see more of the civil war between the tyrant and the rebels! I wanted to see Darmik fight his brother and father more. I wanted Darmik to confront his father about how he treated him all this time. We see a bit of it at the end, but it was very rushed. In comparison, the pros outweigh the cons by far. The cons that do exist are mostly nit-picky things that are based on personal preference. The ending to this trilogy left me pleased and content with the story that spanned over three books. The only wish I have is that we got to see more of Nathenek from the start. I would have liked to see his development throughout the books. Maybe we will get to see a spin off series with him. CROSSING MY FINGERS! This was a great job by Jennifer Anne Davis. I suggest it to all those who love Romance, YA, Historical Fiction, Medieval Fantasy, and Swords.

Wonderful ending to a spectacular and CLEAN teen series! It is amazing to see an author write a series that speaks to the past but commands the attention of the present.

Fantastic culmination to the True Reign Series. From the beginning of The Key, the novels had me enthralled. Definitely a must read.

Too many things kept me from giving this book a higher rating. I'm going to list a few so if you're not looking for spoilers, please stop reading. 1. Acceptance of Rema as empress. Ok. So she's about to be executed and then thru some elaborate plan unbeknownst to anyone, the current emperor is killed and she's named the heir. What I have a huge problem with, is that EVERYONE just kind of went with it! No real explanation...just "oh you're the empress now? Cool beans!" 2. Everything happened way too smoothly for me. There was conflict but no depth. I mean kidnapping children to force the army to cooperate? Who kidnapped hundreds of children? Soldiers I presume? And they didn't fight to keep that from happening? No one in Darmicks army resisted? Seriously, how can you kidnap HUNDREDS of children and no one knew about it? 3. I think the deaths later in the book were written just so there would be some sense of saddens and loss towards the end. It was so unnecessary and it just felt like it was thrown in there because everything was going so smoothly the author needed a tear-jerker moment. I could go on but I've already forgotten the details of most of what I just read. Up to you if you wanna pick it up. It kept me occupied for about 2 hours
