So I recently started going back to school and this book was on my list to buy. I was so easy to find this book when searching for it that I found it almost instantly. I ordered a used copy of the book so it came with pages that had been highlighted or folded. At least to say this book definitely had seen better days. With that being said the book is completely useable and I have been truly enjoying

reading the different essays that are in it. defiantly worth having for my English class.

I never thought i would like a school book so much. Every essay has a deep meaning and offers questions for self reflection. I really enjoy this book!

great price...

great book

love it

I received this book in 3 days and also the condition was very good. However, if you are planning to buy 4th edition of this book, you should go for that. Because 3-4 essays are different in this book comparing to the 4th edition.

I've been using this book for years and I love it. I am a high school English teacher and literally wore out my last copy of this book. The questions that follow each reading selection are challenging and rigorous, and have led to many fruitful conversations with my students.

Great.
