Toxic Mold Litigation

Synopsis

Mold law and litigation is a complex new area. Detailed information is often difficult to find and this book is designed to remedy that. It provides critical background information to put the mold issue in context, including information on exposure, illness, allergic reactions, types of claims filed in mold litigation, and insurance issues.

Joel L. Herz, Esquire of the Law Offices of Joel L. Herz in Tucson, Arizona concentrates on complex environmental and related litigation matters. He graduated from the University of Michigan with honors in 1985, and the University of Michigan Law School in 1987. From 1987 to 1994, Joel Herz practiced in the environmental and litigation practice groups with the New York office of Fried, Frank, Harris, Shriver and Jacobsen. He has been involved in numerous mold litigations. He also counsels and advises local developers, businesses and attorneys with regard to mold issues and the acquisition and sale of environmentally tainted properties. He is a contributing author of *Brownfields: A Comprehensive Guide To Redeveloping Contaminated Property* published by the American Bar Association Section of Natural Resources, Energy and Environmental Law (1997). Joel Herz is AV rated by Martindale-Hubbell. Kimberly A. Taylor, J.D. graduated cum laude from Wellesley College and earned her Juris Doctor degree from the University of Arizona College of Law. After practicing law for several years she now devotes herself full-time to a career in freelance legal writing. Other publications include several chapters on legal ethics in the High Court Case Summaries law study guide series, as well as the forthcoming *Witness: Truth-An Introduction to*

Forensic Science for High School Students (Textbook and Teachers Manual) from Lawyers and Judges Publishing Company, Inc.

Rather dry reading, however that's to be expected in a text such as this. Provides both information and strategic advice to assist in mold litigation. Authors lay out evidentiary standards as well as an overview of mold litigation in various states in what the authors label as "critical" states, which are Arizona, Delaware, Florida, Illinois, Massachusetts, New Jersey, Pennsylvania & Texas. Good reading and serves as a good starting point for gaining knowledge in this field.

Very good litigation tool. I used this information in toxic mold litigation and was successful in defeating plaintiff's summary judgment motion.
