As promised. Thank you.

Required textbook for my music major son. He likes the book as well as one could when reading for school. Well laid out and organized.

Very helpful book for my son.

Works fine!

This was bought for a friend of mine who played a number of instruments but was exploring Brass for a class.

Book was in good condition, but the CD was snapped in half. I'm not sure that was mentioned in the item description, but for \$70, it probably should have been.

This package was great. In excellent shape and shipped in time and efficiently. The book was in great packaging and was no problems during shipping.

It was exactly what I wanted. The textbook was in perfect condition. It was a great purchase for an amazingly cheap price.
