# Geography: Ideas In Profile

## Synopsis

Ideas in Profile: Small Introductions to Big Topics Geography gives shape to our innate curiosity; cartography is older than writing. Channelling our twin urges to explore and understand, geographers uncover the hidden connections of human existence, from infant mortality in inner cities to the decision-makers who fly overhead in executive jets, from natural disasters to over-use of fossil fuels. In this incisive introduction to the subject, Danny Dorling and Carl Lee reveal geography as a science which tackles all of the biggest issues that face us today, from globalisation to equality, from sustainability to population growth, from climate change to changing technology - and the complex interactions between them all. Illustrated by a series of award-winning maps created by Benjamin D. Hennig, this is a book for anyone who wants to know more about why our world is the way it is today, and where it might be heading next.

## Book Information

Series: Ideas in Profile

Paperback: 175 pages

Publisher: Profile Books; Main edition (September 13, 2016)

Language: English

ISBN-10: 178125530X

ISBN-13: 978-1781255308

Product Dimensions: 5.1 x 0.7 x 7.7 inches

Shipping Weight: 7 ounces (View shipping rates and policies)

## Customer Reviews

Danny Dorling joined the University of Oxford in 2013 to take up the Halford Mackinder Professorship in Geography. He was previously a professor of Geography at the University of Sheffield. His recent books include co-authored texts *The Atlas of the Real World: Mapping the way we live* and *Bankrupt Britain: An atlas of social change* and sole authored books, *Injustice: Why social inequalities persist*, *The 32 Stops* and *Population Ten Billion*. Carl Lee has taught Geography for the past twenty years at The Sheffield College. He has written *The Urban Challenge* (with

Graham Drake) and Home: A Personal Geography of Sheffield. His latest book is Everything is Connected To Everything Else. He has made several short films about geographical issues.
