The iconic BETTER HOMES AND GARDENS brand is one of America's most trusted sources for information on cooking, gardening, home improvement, home design, decorating, and crafting. Today, the brand encompasses books, magazines, and digital media.

I thought this idea book was thought provoking and had good information on insuring the final product looked professional! Overall, helpful and very nicely done.

This book is fantastic! Gives you amazing ideas on how to make your home look amazing, plus it makes you want to go to the used furniture store and buy stuff for more fun projects! My biggest problem is figuring out what to start with! ;)

Very happy with this book although it did get bent pretty badly in the shipping. It might have been better to include cardboard or put into a small box. I love the book though and see many projects in my future.

First saw this at the public library and had to have my own! Great read and I can't wait to try some of the projects

I really like books that show you how to take things you don't like any more then work on them and they look new again,that's my hob.y

Love, love, love this book. I can't wait to get started painting furniture!

Very inspiring. Most furniture today is made of MDF and particle board so a better bet is to buy "ugly" used solid wood furniture and beautify creatively with paint. It's amazing how a mundane or dated piece can look so beautiful after a fresh do over. Recently I bought a 1980's wood frame couch and 2 chairs and had the cushions reupholstered. We sanded the wood and put a white stain on it and then did the couch is a soft yellow corduroy and the chairs in a beachy white and navy stripe and plenty of nice pillows. My living room looks like a vacation cottage. If you want to see it go to the Nashville Tn Habitat for Humanity Restore website. They were planning to upload the before and after on their site.

LOVE this book and I can't wait for more new books like this!
