The Work Of A Master Goldsmith: A Unique Collection

Synopsis

Beautifully illustrated throughout, this distinctive collection will give an insight into the work of a 20th century master goldsmith. Each photograph is of a unique piece, showing that the skills of a traditionally trained goldsmith can still create gold and silver pieces that can rival that of the past revered Russian master goldsmiths. This book will be of interest to anyone who can appreciate and is interested in the skills of a master goldsmith, and one who takes pleasure in including flora and fauna, made from precious metals, into many of his designs and finished pieces.

Customer Reviews

James Miller has been a master goldsmith for more than two decades. He specializes in the design and manufacture of unique objects made from precious metals.

Gorgeous, stunning images of exquisite master works - a treasure in my book case. James Miller's work is superb and a wonderful illustration of collaboration, using the specialist skills of two or three masters to create the finished product. James' piercing and fabrication skills are absolutely amazing, and the enamel work and stone setting are equally brilliant. These are works fit for royalty and the mega rich ... which is where they go. Having read many of James' always gentle, modest and helpful posts in response to queries on Ganoksin's Orchid Forum, if I had a wish about this book, it would be to have had a little more information about the man himself, over and above the rather understated work history! I return to the images time and time again, often with a magnifying glass, both to admire and to try and nut out just how something has been done.

Waited a long time to order. Amazing work.
