I purchased this Moleskine music notebook so that I can keep track of my Irish tunes when I go out to play. I just write down the first couple of measures so that I know the start of each tune. It is such an important tool for me. I would be lost without it. I love the size, it fits easily in any bag that I take with me. It has an elastic around it so I can keep the notebook closed and tidy. It looks so professional and is so light to carry. I am thinking about buying a 2nd one so that I can have a back up "tune bible" if ever I misplace this one. Great music notebook.

It is a nice book. The only issue is the covers are not treated as well as I would have hoped.

Moisture have caused spotting on the front and back.

Nothing better than this. Double sided staff paper to keep in your computer bag or larger purse.

Good for if you have ideas or need to explain something to someone with some staff paper.

A nice notebook. It was a gift for a friend.

This notebook is great for compositions. It is pretty small, but it is high quality. I am excited to compose in this little bad boy.

I love having this. It gives me some form of support knowing that if I come up with a chord progression or melody or idea spontaneously that I'll be able to keep hold of it. But keep in mind the staves themselves are very tiny and hard to write complex things on. Micropen suggested!

It's such a handy little book!

This music notebook is perfect to bring along wherever to jot down little tunes. It was a lot smaller than I expected (guess I should have looked at the measurements-- size of a standard note card) but it turned out to be a benefit as it fits in my pocket. Nice quality paper and clear lines and there even is a little pocket in the back to store stuff... I personally haven't used it yet but it would be handy for notes, business cards etc. The cover is fairly durable and the little bookmark elastic thing keeps your place.
