Wilder Destiny: The Guardian Series Book 2

Synopsis

Celeste Wilder's mundane world has been completely turned upside down, and it all started when the intriguing Constantin brothers strolled into her small town last summer. After discovering the truth about her destiny and making a life-changing decision, she is now forced to deal with the consequences of her new supernatural reality. Gone are the carefree days of high school and homework, now she must fulfill her duty as a Guardian no matter the cost. Luckily, she has the love of her life by her side as she battles the supernatural forces of evil, but will that love really last forever? As new challenges arise and old enemies reappear, Celeste must find the strength to overcome the biggest threat she's ever had to face. The third book in the series, Wilder Revelation is out now and you'll get a sneak peak at the end of this book!

Customer Reviews

*****My review has spoilers*****Wilder Destiny is the second book in The Guardian Series. We find Celeste has been honing her skills and that she Roman and Nico have protecting the town from all

the bad guys. We learn more about the fairy Marie and even learn that Celeste has an Aunt. Alek is the big bad in this novel and we learn why towards the end. I have to say it's actually a pretty good plot twist. We see some conflict between Roman and Celeste due to a vision of the past that Celeste sees. The only major qualm I have with this book is the cover to be honest and only because she has curly hair not straight. I highly recommend this series. It's a fun read, that draws you in and leaves you wanting more. I can't wait for the next book.

The second book in the Wilder Series was so good that I finished it in one sitting. G.K. DeRosa has grown so much as a writer in such a short amount of time, and it is clearly evident as the characters have grown too. There is so much depth and description in the story line that you feel like you're actually part of the book! (Let's be honest who doesn't want to be a beautiful, strong woman with a sexy vampire pining over them.) I'm very proud of the author, and I definitely recommend the read!

Though still not amazing I do thoroughly enjoy the story line. I still feel that some parts that need more depth are rushed where as other parts that don't need the depth have it. I will be getting the other books because at the point I have to know the ending!!

Awesome good read like the suspense, can't wait for the next one. good mystery, nice love story. like the mix of supernatural. hope it'll work out for the lovers

I like all the characters and how the story develops it keeps your interest

Good read

HOLY.....Cliffhanger is not the word.....As soon as I finished I felt that someone pushed me off the damn cliff. lol WOW!!! If you have read the first book, then you HAVE to read this one. Secrets will be revealed, battles will be fought, but will love endure all. I was desperately waiting for this book to come out and as soon as I got the chance to start it - OMG I could not put it down. This book had me on the edge of my seat, holding my breath, turning page by page to see what was going to happen. G.K. DeRosa definitely knows how to pull you in, she pulls you in and holds on until the very end when she drops you making you hang on for dear life until the next book comes out. I know some don't like a cliffhanger, but this is the way to do a cliffhanger in my opinion. Make you want to throw your kindle, huff and puff, scream, then sit there like what the **** just happened. Now

begins the stalking for the next book. ;)I received a copy of this book from the author for an honest review.

DeRosa's follow-up novel is a good read, with generally interesting characters and plenty of action, but it is also deeply flawed. The copyediting is unimpressive, with more errors than the standard e-book. More significant, however, is the omnipresence of tropes of the genre, including childish reactions which detract from her initially interesting characters. A decent enough read, especially for Kindle Unlimited, but not as good as the first novel in the series. Cameron S Wright
