Get America Singing...Again! Vol. 1 (Piano / Vocal / Guitar) (A Project Of The Music Educators National Conference)

Synopsis

Community ... use singing to bring people together once again in your neighborhood, home, church, camp, school, club or activity. Plan now to include some audience participation at a concert or other public event. Throw in a song or two at the beginning of a meeting to melt the ice and get communication going. Restore the fun of camp singing next time you gather a group around the fire. Get out the guitar, sit down at the piano, tune up the Autoharp, add a bass, drums, or any other instruments you can lay your hands on, and have a sing-a-long. Developed in association with the Music Educators National Conference (MENC) and other music organizations, this publication contains over 40 songs which represent America's vast and varied music heritage, along with an introduction by America's own Pete Seeger. A portion of the proceeds from the sale of these editions will benefit the national MENC campaign to "Get America Singing ... Again!" Available: Piano/Vocal/Guitar Edition, Singer's Edition, and Singer's Edition (10-pak). For all ages.

Community...use singing to bring people together once again. Plan now to include some audience participation at a concert or other public event.

Perfect to accompany the singer's edition book with the same title. The arrangements are of a intermediate level for pianists; not bare bones, but not very difficult for an average music teacher. My guess is around level 5 of piano study.

Most customers will know most of the songs. And the ones they don't, they should. Great book if you're looking for a song to play or sing.

Love this book, as a music teacher it is an ESSENTIAL resource

A trusty companion to classroom music teachers everywhere. Even novice piano players could learn these accompaniments which provide support for your singers.

I love this book. It contains many standard songs in singable ranges with very playable accompaniments. I use it with a few homeschooling music classes and the selection is great--the kids love the songs. The performance cds are also well done and easy to sing to. The guitar chords are perfect and I like that they include easier guitar chords to play with a capo. An all around great resource.

For all those long lost songs, the history of music in America, get this book! These wonderful old songs should not be lost to the memories of the younger generations. This book and it's sequel, are wonderful resources.

This is an excellent resource for community sing-a-longs. The repertoire is well-chosen from old familiar favorites. The music is clearly written.

I liked this songbook because it has such a variety of songs. It's got some of my favorites, such as "God Bless America," "The Star Spangled Banner," "Michael Row the Boat Ashore," "Amazing Grace," and "This Land is Your Land." If you like these kinds of songs, then I recommend Get America Singing...AGAIN.
