ISBN-10: 0983079331

ISBN-13: 978-0983079330

Product Dimensions: 6 x 0.9 x 9 inches

Shipping Weight: 1.5 pounds (View shipping rates and policies)

Average Customer Review: 4.6 out of 5 stars 3 customer reviews

Best Sellers Rank: #1,273,801 in Books (See Top 100 in Books) #28 in Books > Science & Math > Agricultural Sciences > Irrigation #19651 in Books > Health, Fitness & Dieting > Alternative Medicine #86254 in Books > Medical Books

## Customer Reviews

This book is giving a balanced opinion and clear explanation about how colon hydrotherapy is viewed in today's and passed medical world. It is thoroughly informing where current hydrotherapists stand and how they have a value amongst current medical procedures. As a student However I did miss the graphic support of drawings or pictures of the intestinal tract, attachment points of the colon and layout of treatment rooms.

GREAT reference for all Colon Hydro-therapists. Very generous of this doctor to realize the importance of a therapist knowing this information as well as acknowledging and supporting the practice of Colon Hydrotherapy. I will reference this book over and over!

to read a book created by an MD speaking in detail about the functions of the colon gives so much credibility to a practice that many perceive as "quackery" .
