I very much wanted a communication book with a Christian point of view and this book popped up in my search. Though it doesn't make reference to the christianity perspective, i appreciate how your book can be used in both settings. Thank you so much for all of the helpful life experience advice

A very concise and easy to digest primer for anyone looking to improve communication with their

spouse. While a little light on content what was included was helpful with great frameworks to follow.

This book was easy to understand, straight to the point, and helpful. Highly recommended. Lots of useful information in a smaller book. Very satisfying. Can't wait for my husband to read so we can discuss and utilize the material.

Loved the book! I will use the seven steps when I communicate with my husband of 21 years. Also will use when talking to go workers. Very helpful!

Wasn't very impressed with this book

learning to listen empatheticly was a big eye opener for me. I have always was too busy thinking of what to say I did not listen well. Time to put it into practice now.

This is an awesome book. My husband and I went to a couples seminar where the Five love languages was the topic of the seminar. Both books are very good, informative and extremely helpful.

Communication is key to a marriage. It's the #1 reason a marriage will fail. This is an awesome book that will help anyone that is having difficulty with this.
