Not a quickly thrown together book to take advantage on her popularity-a lot of thought went into this one. It isn't a book just about juicing-lot's of tidbit's from her journey are thrown in along with suggestions for just getting along with life in general. Not a quick read either-but worth the effort. Thanks gorgeous!

Great information presented in an entertaining way. There is a lot of wierd and erroneous "health" information out there, but this is the real deal. Wonderful recipes - I especially love the Turmeric Milk. So expensive to buy, but very economical to make. And mind blowing let healthy! If you want to take your healthy eating to the next level, this is for you.

New breast cancer diagnosis prompted me to clean up my act, literally, and bought all of her books. Fun, great recipes and supportive. I use this book every single day and am definitely a long term

juice/smoothie maker. I especially like that there's narrative for each recipe on it's health benefits. Would highly recommend.

all of Kris Carr's materials are wonderful with her signature groovy vibe. I haven't had a chance to make the smoothies, but book is divided between juicing, smoothies, other things - well laid out & colorful.

I love Kris Carr's writing style. She's so personable it's like talking to your BFF. Also, no preachiness here, just suggestions on how to live a healthier, happier life through the power of plants!

Love love love this book. So many choices. I don't have a juicer but she gives smoothie recipes too. I love Kris Carr

I am new to the juicing world. This book simplified everything and made it very easy for me to get started. It has a ton of very yummy recipes to boot.

These all look so easy to make! Now... to actually make them! Kris is SO upbeat, yet also so authentic. So vibrant even though the stage IV cancer remains.... What a warrior, and a lover of life! Thank you, Kris.
