Bengal Cats And Kittens: Complete Owner's Guide To Bengal Cat And Kitten Care

Synopsis

Everything you wanted to know about bengal cats and kittens. Guaranteed to answer all your questions, this book is a must for anyone passionate about Bengals. Personality, temperament, breeding, training, health, diet, life expectancy, buying, cost, and more facts."Bengal Cat and Kittens" will introduce you to the cat that is like no other breed in terms of their dog-like habits. If you are looking for a loyal companion that fetches, walks on a leash, often has a strong fondness for water, and is as beautiful as the Asian Leopard Cat it descended from originally, then this might be the ideal cat for you!This book also includes information on how the Bengal cat compares to other similar exotic breeds of cats that have "wild" cat ancestors from a few generations back, as well as TICA information, and legal considerations specifically for USA, Canada and the UK."It's good to finally read a book by someone that has owned and clearly loves Bengals like I do. I learned a lot about my Bengal kitten after reading it. Highly recommended!"-Louise Pasli

Customer Reviews

The books gives a lot of information about the pros and cons of having a bengal cat, or starting a

cattery.

Informative and interesting, wish it had more pictures

Very helpful in my understanding of how to raise two bengals!!

This is an easy to read, overview of the breed and its requirements. A quick read for anyone interested in the breed or considering getting one of these cats.

The book explains quite a bit about the animal and is a good detailed summary of what to expect. I wish the material was a bit longer and explain more unique things.

Highly recommend if you will be getting a bengal. Teaches you everything u need to know

I was looking for more information ... like ways to play with them to utilize their intelligence etc.

Very happy and thank you very much
