Superior Tattoo Bible: Book One

Synopsis

Whether you are preparing for your first tattoo or your twenty-seventh, you need artwork and designs that are just-right. Tattoo Bible Book One, authored by Superior Tattoo, provides more than 500 pieces of unique flash art. Everything is here, from hearts to dragons, tattoo designs that range from traditional to the avant-garde. Tattoo Bible includes flash never before compiled in one single book. The artists included in this book include the best known names including Kevin LeBlanc, Aaron Coleman, Bob Sims, Nate Powers, and many, many more. While most tattoo books available today concentrate on one specific genre, this book covers many different genres and the ideas are endless. This is not just a book to add to your collection - this is your collection. You can combine different pieces of art from within the book, or just take them as is. This book is for you and your imagination to do with as you wish. The images are represented in range of physical sizes, some are printed two or four per page, the more intricate designs are reproduced as full-page spreads. The categories include hearts, dragons, roses, skulls, butterflies, girls, crosses, celestial, tribal, back pieces, and nautical. Published by ArtKulture, an imprint of Wolfgang Publications, Tattoo Bible covers 144 pages with images that are both striking and very useful to both the tattoo shop, and the tattoo aficionado.

Superior Tattoo is one of the premier suppliers of equipment and supplies to tattoo shops all over the world. In fact they are rated the number one supplier of quality tattoo equipment by International

Tattoo Art magazine. From tattoo machines to inks of every color, Superior Tattoo sells and services everything a shop needs to create high quality, colorful tattoos. Because of their position in the industry and relationships with some of the best-known tattoo artists, Superior Tattoo is in an ideal position to author a book of unique flash art.

It is very difficult to find a book that explains enough to satisfy a truly curious mind. This appears to be a series of articles that were strung together to eventually make a book. I'd much rather recommend Tattooing A to Z by Huck Spaulding if you want a complete, well informed source of information about tattooing as a starting point to learn more. Neither should be used to try to teach yourself how to tattoo. Only a real apprenticeship in a studio under an experienced tattoo artist will help you establish a career in tattooing. Whomever agrees to train you, make sure they CAN teach, and that they ARE willing to teach, and not just take your money and make you the shop gopher. Do your research. These books are just starting points to get some of the basics under your belt.

I was hoping for a book with decent artwork- this was not it. Superior Tattoo has some nice flash, but very little was in this book...you'd do better going to their website and ordering there. If you are looking for a tattoo design or enjoy artwork, I would not recommend this book...the pages are nice though....glossy. but hey, I am very picky.

This was a Christmas present for my Niece. She was very excited when she opened it. She loved it. Lots of cool pages to color. Great quality coloring book. I should have ordered one for myself too. I'll have to order me one soon. Great product. Fast shipping. Great packaging. Highly Recommend

Good!

If you're looking for a comprehensive book full of tattoo ideas look elsewhere. This was an utter waste of \$10 and offers roughly 70 different designs. All of which are from just 7 categories. (Butterflies, tribal, dragon, women, etc.)

I bought this for my boyfriend who's a tattoo artist. The book came around the time they said it would, and it's a decent sized book for the price, the only problem is that since it was labeled "Tattoo Bible" I expected it to talk about tattoos in depth and explain them, maybe even talk about tips on how to do them, however it was only pictures. Maybe I was just overestimating it? Or not fully

understanding the purpose. Either way if you're just looking for a bunch of pictures of tattoos this is a great book for you!!

This was a waste of Money.... With a title like that it should be a book of all books but it failed.... I recommend u go on a search engine to find art like this for free, I got the first and last book they put out just to see if it was some what better but it was the same so I say don't buy and image search your designs and ideas.....

I expected the book to contain best practices, equipment and techniques. It contains only tattoo designs. I bought it as a christmas gift for an illustrator who is interested in becoming a tattoo artist. So when he opened it and there were only desins in it, I was a little embarrassed. I'll make better purchasing decisions next time.
