At first she is hesitant and uneasy about their loyalty and friendliness and prefers to keep them out of her circle of close friends. However, after interacting with them, she realizes that her new friends are trustworthy and it is her own selfish attitude and jealousy that is hampering their friendship from blossoming. Great book!

great little book for girl and making friends and how to include everyone when making new friendships. great read. recommended

WOW!! I must say that I was very impressed with this children's book. I originally bought this book for my nine year-old daughter on a tip from a friend. However, once I began reading it, I couldn't

stop. This comedic, yet touching, portrayal of a young Muslim girl's life in the US is precisely what we need in our changing world today. The language, situations, and issues which the protagonist encounters gives an inside look into a culture that is often misunderstood. I was happy to find a new kind of literature to share with my daughter. I highly recommend this book, and all the future titles in this series, to both young and old readers. What a great find!

As a mother of two children I recommend this book for both Muslims and non-Muslims. The book is great for entertainment as well as learning basic knowledge about Islam and cultural diversity. It teaches essential qualities such as listening to elders and respecting others of different nationalities. I would even suggest this book as an entertaining read-aloud piece. I can't wait to buy the next book in the series.

The BFF sisters are a really great bunch. My daughter loved this book. She related to Jennah and her friends right away. We cannot wait for the next book!
