Healing The New Childhood Epidemics: Autism, ADHD, Asthma, And Allergies: The Groundbreaking Program For The 4-A Disorders

Synopsis

Autism is an epidemic: It has spiked 1,500 percent in the last twenty years. ADHD, asthma and allergies have also skyrocketed over the same time period. One of these conditions now strikes one in every three children in America. But there is hope. Leading medical innovator Kenneth Bock, M.D., has helped change the lives of more than a thousand children, and in this important book, with a comprehensive program that targets all four of the 4-A disorders, he offers help to children everywhere. This is the book that finally puts hope within reach. Doctors have generally overlooked the connections among the 4-A disorders, despite their concurrent rise and the presence of many medical clues. For years the medical establishment has considered autism medically untreatable and utterly incurable, and has limited ADHD treatment mainly to symptom suppression. Dr. Bock and his colleagues, however, have discovered a solution – one that goes to the root of the problem. They have found that deadly modern toxins, nutritional deficiencies, metabolic imbalances, genetic vulnerabilities and assaults on the immune and gastrointestinal systems trigger most of the symptoms of the 4-A disorders, resulting in frequent misdiagnosis and untold misery. Dr. Bock's remarkable Healing Program, drawing on medical research and based on years of clinical success, offers a safe, sensible solution that is individualized to each child to help remedy these root causes. The biomedical approach to autism, ADHD, and the other 4-A epidemics, as innovated by Dr. Bock and some of America's finest integrative physicians, is one of the most promising and exciting medical movements of our time. In this eminently readable account, written by Dr. Bock in collaboration with critically acclaimed author Cameron Stauth, you will meet children and parents whose dramatic stories will inspire you to change the life of your own child. This program may be the help that you have been praying for. From the Hardcover edition.

Customer Reviews

Almost half of all American children today are diagnosed with autism, ADHD, allergies or asthma, an "undeniably epidemic" statistic that physician Bock (The Road to Immunity) and author Stauth (Brain Longevity) use to launch an investigation into potential causes of and treatments for these conditions, while demonstrating Bock's unusual approach through numerous case studies. According to the authors, genetics "load the gun, and environment pulls the trigger": bodily toxins like heavy metals, exposure to viruses through vaccination and poor nutrition create "a veritable perfect storm of physical and neurological insult" that hits hardest those still developing their immune systems. In case studies, Bock approaches each patient like a puzzle waiting to be solved, a refreshing, multi-pronged strategy to healing: finding and treating the root cause of illness rather than its symptoms, reducing the body's toxin load and helping the body heal itself through nutritional and medical therapy. Empathetic and encouraging, this highly readable guide breaks down complex biomedical concepts clearly, keeping frustration at bay. Parents of affected children will appreciate the guide to action, but they, along with medical professionals, will probably wish for endnoted references rather than a general bibliography, and further statistics on treatments. Advance praise for *Healing the New Childhood Epidemics: Autism, ADHD, Asthma, and Allergies* — "An easy-to-read commonsense guide to beneficial biomedical treatments such as diets and supplements. Dr. Bock clearly explains the different options and provides case histories of treatment successes." — Temple Grandin, author of *Thinking in Pictures* — "Superb . . . Encyclopedic but accessible and easy to read, this book will tell you all you need to know — and all your doctor needs to know but probably doesn't. An expert in the field, I learned a lot by reading this fascinating, extremely useful book." — Edward Hallowell, M.D., author of *Delivered from Distraction* — "This remarkable and timely book provides a truly invaluable resource for parents, guiding them toward positive steps they can take to rescue their children. Bock and Stauth have done an outstanding job of removing the barriers to understanding these conditions and getting children started on the path to

recovery. — Richard Deth, Ph.D., professor of pharmacology, Northeastern University — “This book provides readers with the tools to defend and restore their children’s health. It is well written and comprehensive, and tackles the controversies organized medicine would prefer to ignore. If you are concerned about the futures of all our children, this is a must-read. — Jeff Bradstreet, M.D., F.A.A.F.P., director, The International Child Development Resource Center — “This groundbreaking book is sure to change the face of pediatric medicine. It’s a remarkable and practical work by a fine physician and an excellent science writer. I highly recommend it. — Dharma Singh Khalsa, M.D., author of Brain Longevity

From the Hardcover edition.

So interesting, an approach that looks at the whole child, the big picture. Gives us direction and hope. The resources in the back helped us find an amazing doctor who takes this approach in our area!

Offers excellent information and ideas. The changes we made as a result of trying some of the suggestions improved how our child felt and behaved. This is written in semi-technical language, fairly easy to follow and comprehend.

Great information. Will certainly help my nephew.

I have researched in this area for over 5 years. This book brings all of that research together plus more. I loved it, it is a great easy to understand read, a MUST read for all parents with special emphasis on those who themselves or close relatives have suffered from asthma, allergies, adhd and autism. I ordered 5 more copies to give to friends and patients with intention to order more.

Great reading for anyone who has a child suffering from ADHD Autism spectrum disorders or Pans / Pandas.

What a great book to explain how you can take control of your child’s challenges in layman terms. Dr. Bock explains how you can heal your child and gives parents hope in many hopeless cases. He also discusses very real life examples of children suffering from the 4-A’s and the reader can relate these in their own situation.

good book

My new favorite book with thorough explanations, lots of examples, and Reference section on supplements that was very helpful! Highly recommend!!!
