Customer Reviews

Excellent new guidebook to understand the basic teachings of Eckhart Tolle regarding the endless flow of negative thoughts and how to deal with it. Great lessons and exercises. I give it five stars! Chapters look at some issues such as how adversity can be valuable, watching our thoughts, and repetitive negative thoughts. Included also are helpful exercises to get you on the right path toward a more positive mindset. I particularly appreciated the very first exercise in the book--"stopping your thoughts." This is a meditative style exercise that will make you more aware of the types of thoughts you are having--most of them are actually dysfunctional, after all! There are also links to Eckhart Tolle's excellent videos, which are also quite constructive.

This book is a great resource to showcase how powerful your thoughts are. Negative thoughts can consume you and make you feel as though there is no way out. The author provides worthwhile exercises that you can perform daily to shed those negative thoughts and start experiencing the joys in life. I really enjoyed the Negativity and Resistance lesson. This lesson teaches you how to surrender to the now and reflect on the things occurring in your life. Once you can acknowledge and accept the aspects of your life, the process of reducing negative thoughts and growth are right around the corner. This is definitely a must read.

Excellent tools for helping you get a grip on yourself in a good way!
