I was very intimidated before taking this class but this book helped to put my fears at ease! This book was so well written and descriptive that even those with minimal legal researching knowledge will be able to understand. It comes with lots of examples, which is very useful. The book is captivating and I would highly recommend it!

Very informative

This book is surprisingly readable. Although the subject matter sounds dry, the author makes it very accessible. You can feel her enthusiasm for the law as you read. Packed with information and references, I will keep this book after my class is over.

What can I say. It is the right book. He likes his class and he is using the book and doing well.

This is such a great book my professors, whom are also lawyers use this book every semester since I started school in 2013. So that should mean something. This book was also required for a course.

Book arrived in awesome condition, and arrived before the expected date. The book itself is fairly easy to understand though a tad redundant on certain topics. It helps to make sure that you understand and is made for beginner paralegals.

FIVE STARS

I needed it for a legal research class it arrived early and it sure helps a lot it summaries stuff easily and keep it simple so I can understand. Love it
