## Customer Reviews

This book helps in mastering the techniques of classical jazz.

Nothing but superlatives! will write a full review after I have reviewed it in depth and compared the transcriptions to the recordings.

Yeah, there are some octave transposition problems and also some rhythms are notated kind of weird... but I think it's well worth the price and good reference for tenor players everywhere!

Excellent

Fast shipping and as dsecribed

Excellent, neat notation and excellent transcriptionHighly professional done

This book gives players an opportunity to get into the way Trane worked and reworked ideas. I like to use it to play along with the recordings the solos are transcribed from. Hold on!

very good . easy to read..
