85VN – All For Strings Theory Workbook 2: Violin

Synopsis

Theory Workbooks 1 and 2 are correlated with the All for Strings method books and are suitable for classroom or individual use. Each page features exercises and games which encompass music fundamentals introduced in the method books. Students start by learning the piano keyboard to increase their understanding of the intervals. They also work with fingering chart exercises so that basic theory can be immediately applied to their instrument. In addition to drawing clefs, notes, key and time signatures, students learn about musical phrases and begin composing. Puzzles and musical math games are also included.

Customer Reviews

I use this in classrooms and as an at home teaching tool! All For Strings Method is not just for violin might I add! Cello, Bass, Violin and Viola. For Teachers I suggest the all in one Conductors Score do not purchase all the items separately, The Conductors Scores comes in 3 spiral-bound paper back books (which I LOVE!). Otherwise there is like 20 different books to purchase.... RECOMMENDED for students age 10 & up.

Ordered by accident, but it's a GREAT supplement for the books and young students!!

Great for beginners. Takes you step by step through leading how to read sheet music. Definitely recommend. Also, pick up the oter book that goes along with section 2... There are 3 total books.

My daughter loves this series of "All for Strings" that her violin teacher uses. The books are very well explained, so even if you don't play the violin you can somewhat help out your child if they have a question.

The product came in good quality shape and was used in conjuntion with other purchases I had made on . Thank You

Thanks
