Female Ejaculation And The G-Spot: Not Your Mother's Orgasm Book!

Synopsis

Like men, women also can ejaculate, enhancing and intensifying their sexual pleasure. In an open, positive style, Deborah Sundahl presents information about female ejaculation including scientific findings, anatomical illustrations, historical accounts, a chapter on how men can help their female partners to ejaculate, and women's and men's experiences collected during the past two decades.

Best Sellers Rank: #80 in Books > Audible Audiobooks > Health, Mind & Body > Sexuality

#1523 in Books > Self-Help > Sex #3576 in Books > Audible Audiobooks > Health, Mind & Body > Self-Help

Customer Reviews

Great book, a must read. Chief have cook books, Priest have bibles. This book is for those people who are into satisfying their partners and themselves completely. This book demonstrates how to do it the right way. Now I understand the power of out course before inter course.

I haven't written many reviews, however this one is so worth it. This book is well put together, full of great information, and is geared toward women (with information for men too). It was great to be reassured that I was capable of achieving what is mentioned in the title, as well as being given clear instructions on how to do so. This book has changed my life, and I now feel connected to myself in a way I never have before. Deborah Sundahl is an amazing woman, that has written a guide that I believe every female can benefit from. If you're on the fence about this book, I would love to give you the nudge to go for it. The way I feel after reading, exploring, and connecting with myself has helped me reach a new level of self-acceptance, and I have shared it with several of my girlfriends already, with very positive results. I hope the same for you, and encourage you to step forward and claim what can be yours.

SO-SO

If you're looking to learn about the G-spot, what it can do for you, and how to make it come alive - this is your book. It gets a little fixated on female ejaculation, but the depth of information about the G-spot and the possibilities it creates for one's sexual evolution are unmatched.

My wife of 11 years has been somewhat reserved in a lot of ways in bed. After she read this book.....The animal came out. She and I have learned a lot of information and now we are having a lot of fun! Get it! Read it! Bring a towel to bed!!lol

Great at teaching you how to just let go. I am still very much learning all this stuff. My husband was very impressed!

This book is fine, but there is nothing in here that we haven't already read in many articles online. Save your time and money and just google the topic. Unless you are really interested in historical references.

I am a general practitioner (MD) and there was quite a lot of information I never learned in anatomy class in this book. It only took me a couple of weeks and a very enthusiastic boyfriend to help me learn to allow for this overwhelmingly enjoyable bodily function to happen.
