Laura Ingalls Wilder (1867–1957) was born in a log cabin in the Wisconsin woods. With her family, she pioneered throughout America's heartland during the 1870s and 1880s, finally settling in Dakota Territory. She married Almanzo Wilder in 1885; their only daughter, Rose, was born the following year. The Wilders moved to Rocky Ridge Farm at Mansfield, Missouri, in 1894, where they established a permanent home. After years of farming, Laura wrote the first of her beloved Little House books in 1932. The nine Little House books are international classics. Her writings live on into the twenty-first century as America's quintessential pioneer story. Renée Graef received her bachelor's degree in art from the University of Wisconsin at Madison. She is the illustrator of numerous titles in the Little House publishing program, as well as Rodgers and Hammerstein's *My Favorite Things* and E.T.A Hoffman's *The Nutcracker*, adapted by Janet Schulman. She lives in Cedarburg, Wisconsin, with her husband and two children.

I got this one used and really cheap, so all's good. But I have to say that I wouldn't buy it expensive and new. It is way too basic. It covers a tiny scene in the original book and it doesn't do as good a job of it as some of the other preschool books. Pa sees the deer, thinks about how his family needs meat, decides not to shoot them anyway, tells the kids about it. Not as much interest as others of the preschool books. This is one where the simplification is over simplification. The original scene does have some depth to it but this is pared down to a weird moral thing - he's a hunter but he decides not to shoot, this once. End of story. There is none of the depth of character and emotion that is involved in the original and in this case it is lacking because it kind of misses the point of the scene.

Good item!!

I love this story! I read it to a class of students and they were very interested in it.

This book inspired my 6 year old to begin writing her own "Book of Good Books"! She dictated to me narrations of this book, and then others. Then she illustrated her "Book of Good Books" looking at this book's illustrations as her guide. What a review! It inspired her literary AND her artistic talents!

Illustrations are wonderful. Story is condensed, but complete. My daughter loves these books.

I love the quiet beauty of this book.

Beautiful illustrations. Of course, the content is obviously fabulous, seeing as it was adapted from Laura Ingalls Wilder's original series.

This is a must for any one with children who love the stories of life in the early US. Our kids have enjoyed these stories and they are a great way to introduce conversations about how people used to live.
