Customer Reviews

Activision Publishing, Inc. was founded in 1979 as the first independent video game software developer and distributor.Â Today, the company is a leading worldwide developer, publisher and distributor of interactive entertainment and leisure products for a variety of platforms.

Nothing in this guide will walk you through anything. Really, it's a reference manual. A guide... well, guides. This book is a compilation of game facts, general hints, and NO MAPS! I'm actually kind of angered by it. (Hence, why my grammar is thrashed!)No mapsNo walkthroughsNo hidden treasureNo mention of easter-eggsNo information, as it takes little-to-no effort to find all this guides information while playing the game.This is a glorified game manual, and should have been included in the starter pack of the game. I'm not joking, and there is nothing in this guide that isn't told, seen,

or discovered for yourself in the game. The pages are too small. WAY too small. The binding often covers some information, or makes it tough to see, because it is cropped too close to the information on the pages..Worth about .25 cents at a garage sale.... that's about it. I paid \$4 and waited a ridiculous amount of time for the "free shipping" to finally arrive 2 weeks after the child's birthday.DON'T DO IT. Don't purchase this expanded game manual. Use internet searches, or give the other guide a try. Just don't waste another minute looking at this game guide.

My son loves this book and has read it cover to cover. That is why it's getting 5 stars. I have no idea if it really deserves 5 stars, but from the amount of quiet I got from this purchase, it's getting 5 stars!

Paperback book delivered in pristine condition. My son (8) has wanted this for a while and will be very excited at all it includes. Thank you!

My nephew is not a book reader and when I got him this to go along with the Swap Force figures, he was excited and has been looking at the book EVERY DAY since Christmas. I hope he will get use to having a book in his hands moving forward.

Doesn't really go into enough detail. Items are not always as described in the book which causes a bit of frustration for my kids. Poster at the end of the book is nice.

Just as great as the first book! My son loves it!

My son is happy with this

Its about all the different types of Skylanders, their powers, origins, backstories, of course my son loved it.
