Customer Reviews

This book is for the revised SAT beginning March 2016. Quick tips for preparing for SAT math:

1. Begin studying at least 3 months before the SAT.
2. Practice SAT math problems for 20 minutes each day.
3. Choose a consistent study time and location for your SAT prep.
4. Every time you get an SAT question wrong, mark it off.
5. Redo SAT math problems you have marked off every few days.
6. If you get a problem wrong again, keep it marked off.
7. Try to solve each problem in more than one way.
8. Learn test taking strategies that work specifically for standardized tests.
9. Focus on SAT math problems at and slightly above your current level.
10. Take four official SAT practice tests before test day.

Dr. Steve Warner is a mathematician and test prep expert who has been tutoring students in mathematics for standardized tests since 1999. During this time Dr. Warner has used the feedback from thousands of students to develop a unique system that can be used by anyone to drastically improve his or her math score in a very short period of time. In 2012, Dr. Warner founded "GET 800" whose goal it is to provide inexpensive test preparation for students who cannot afford to pay \$500 per hour for one on one tutoring from a test prep expert. GET 800 offers prep books for the SAT, ACT, SAT subject tests, AP Calculus and Physics exams, GRE and SHSAT. Dr. Warner works with students individually and in group settings, he tutors both live and over video conferencing and he offers free materials in the form of his blog, his YouTube channel, and his Facebook page where provides test prep advice and answers student questions.
