Customer Reviews

PreS-Gr 2 "The lovable, bug-eyed Fly Guy and his boy Buzz are back for another foray into a nonfiction subject—weather. The water cycle, types of weather events, and weather-related careers are some of the topics addressed. Buzz and Fly Guy appear within each spread, interacting humorously with the photographs. Pages alternate between a layout of framed photographs with standard text and a notebook layout done in a handwritten font. Factoids are attention-grabbing but may prompt questions the book cannot answer. A statement about how animals can get trapped in a waterspout "until they fall from the sky—like rain" appears next to a photograph of some frogs (all their feet on the ground), matter-of-factly labeled "FROGS." Puzzlingly, the coverage of weather is

framed within Buzz and Fly Guy's visit to a weather station, yet the text does not define what a weather station is. However, the humor and fun will spark curiosity in students needing a bit more jazz in their nonfiction. VERDICT A worthy introduction to weather for lower elementary students.â "Sara White, Seminole County Public Library, Casselberry, FL

Grandkids didn't enjoy. Made me stop reading. More of an educational book instead of story.

My 6 year old loves the Fly Guy series and this book was no exception. He'll stay up late at night reading, he's fascinated to learn more. I like how the Fly Guy books help new readers expand their vocabulary and improve their reading skills while learning valuable and interesting information. He loves it so much we got a copy for one of his friends too for his birthday.

My 4yo son is a very curious learner. He loved the Fly Guy fiction readers, and got super excited when he saw this in a school book order. We are slowly collecting these books on a variety of topics. Great balance between the informative and the entertaining! He spouts fun facts he's learned to anyone who will listen

Grandkid love it
