FJH Young Beginner Guitar Method, Exploring Chords, Book 1

Synopsis

This book is supplemental to the FJH Young Beginner Guitar Method. Students may begin the Exploring Chords book at any time in their studies. Chords are presented by chord name and guitar fingerboard (frame) only. Duet arrangements allow the teacher to play the melody while being accompanied by the student.

Customer Reviews

Arrived as described - thanks!

This line of books are great for teaching a beginner on guitar. It transitions very smoothly. And, a lot is learned in a short period of time. Love these books! Thanks

As a professional guitar teacher I start all young beginners with this series. The Theory book provides a great way to reinforce the musical concepts introduced in the other volumes.

This line of books are great for teaching a beginner on guitar. It transitions very smoothly. And, a lot is learned in a short period of time. Love these books! Thanks

I teach elementary guitar class and I also teach privately. I have used this book for many years with a lot of success. Students have goals to accomplish and moves at a student friendly pace. I have tried other methods but always come back to this book.

Good teaching tool for our 6 year old son

This was the set of guitar books recommended by my kids' guitar teacher, and they seem to be learning well with it.

Great line of books.
