Hope Within History

Synopsis

Within a culture that is presently shaped by values of hopelessness, Walter Brueggemann looks at the biblical text and finds the resources for a hope within history, a hope that challenges hopelessness and despair. Hope within History describes how individuals and churches can grow even when at odds with their social context, addresses the theological question of how we experience hope in our historical-biblical context, and provides a model for faith development based on our understanding of hope within history as set forth in the biblical narrative.

Customer Reviews

Walter Brueggemann is William Marcellus McPheeters Professor Emeritus of Old Testament at Columbia Theological Seminary in Decatur, Georgia. He is the world's leading interpreter of the Old Testament, and is the author of numerous books, including Introduction to the Old Testament: The Canon and Christian Imagination and Reverberations of Faith: A Theological Handbook of Old Testament Themes.

how do i rate a book like this? i mean, it's certainly not a "reader". no one's gonna curl up by a fire with a cup of hot chocolate and read this puppy, finding it to be a page-turner. it's an intro, followed by a collection of 5 theological talks, presented by brueggemann at one theological symposium or another. and, unless you live in that world, much of the language is so dry and pithy, i literally laughed out loud when i noticed that the back cover said that the author was known for how

readable he is. yet, that said, there were some theological gems in this baby that just blew me away. like, there were ideas in this little book that will shape things i think and say and write for -- well -- the rest of my life. it's that kind of framing book. i've been doing quite a bit of thinking about christian hope, and scot mcknight had recommended this (and a couple other brueggemann books) as part of my background reading. brueggemann has, in 100 pages, given me a new biblical framing for understanding how hope plays out in our lives.

Terrific insights, clearly written, inspirational.

This is now dated, and out of print. But the subject of whether people of faith can still hold hope in our time is still apropos. Brueggemann does it well in this collection of articles.
