Stephen Curry: Rise Of The Star. The Inspiring And Interesting Life Story From A Struggling Young Boy To Become The Legend. Life Of Stephen Curry - One Of The Best Basketball Shooters In History.

Synopsis

I've never been afraid of big moments. I get butterflies. I get nervous and anxious, but I think those are all good signs that I'm ready for the moment I'm in. Stephen Curry. Stephen Curry was intent in showing the world that he was not just lucky. He wanted to show that he deserved to be playing in the Finals. He deserved to be the MVP. He deserved to win a championship. He deserved to be recognized as one of the greatest players to ever play this game. From humble beginnings, as the 7th pick in the 2009 NBA Draft that went relatively unnoticed, from having the one of worst records in the NBA in his first year as a Warrior, from being cast aside by critics for being always riddled with injury, he was now on the verge of ending all speculation once and for all as to whether his name deserved to be mentioned amongst the NBA greats. All it took was just 12 more minutes, just 1 more quarter of basketball with the Cleveland Cavalier fans booing him, the critics doubting him and the whole world watching him - he would show them just what he's capable of to succeed under pressure, a skill he has picked up and honed over all the years of his basketball life. After 12 minutes, the world would come to know of the legend of Stephen Curry being one of the greatest shooter's to ever play the game of basketball. After 12 more minutes, Stephen Curry would be deemed a bonafide superstar. After 12 more minutes, Stephen Curry wouldn't be known as the guy who got lucky to be MVP or he would go from being just another all-star, to being an NBA Champion and solidifying his status as an absolute force to be reckoned with in the league. Interesting, engaging and easy to read, this book is about the rise of Stephen Curry, the Long-Shot, the MVP, and the Champion. Get this book now and enjoy the journey of the greatest super star!

"The book is written nicely, where a youngster would enjoy it as well as an adult. Not "dumbed down" or oversimplified, just stated in a manner suited for all audiences." - [Robin Walton](#) .."This book is a really inspiring story about basketball player Stephen Curry. I learned so much about Stephen's life and career from reading this book." - [Avid Reader](#) .."I really enjoyed reading how much he had to overcome so many obstacles to get to where he is at today. The story was written well and I'm sure any sports enthusiast would enjoy the story." - [Nancy Johnson](#).."This is a good motivational book for young athletes to read and I would recommend it for that aspect alone." - [Mr. Braz](#).."Hard to put down!! This book is well written and very easy to read. It details the life of last year's MVP (and most likely this year's too!) and one of the greatest shooters the game has ever seen. This inspirational book should be read by everyone!" - [Sarah Payne](#)

Being a Northern California expatriate and a bit of a sports nut, I've loved watching the rise of the Golden State Warriors over the past couple of years. One of the happiest parts of that rise (beside their beautifully selfless teamwork) has been the emergence of Stephen Curry as MVP and NBA star. This book illustrates why. The book is written nicely, where a youngster would enjoy it as well as an adult. Not "dumbed down" or oversimplified, just stated in a manner suited for all audiences. Curry himself makes for a terrific subject, not just because of his incredible skill as a player, but his humility, faith, and devotion to family. (After all, daughter Riley stole the show in the post-championship interviews!) His collegiate career is covered well, as is his earlier time in the NBA. He's not seen "in a bubble", either, but in the context of his team and other NBA standouts. (I mention that after having read a number of sports bios with little reference to anyone other than the subject.) I would absolutely recommend this book for basketball fans, Warriors fans, Steph Curry/Splash Brothers fans, and anyone else, age can-read-reasonably-well to adult, who enjoys a book about a respected and talented young man whose hard work, faith and family have brought him to fame and success. I did receive a discount on this item in return for a fair and honest review.

Being a Stephen Curry fan, I have to say this book shows the side and background of Curry that most people take for granted and that most fans don't see. This book tells the story of Curry's life on and off of the court nicely. I believe that both a younger and older fan would be able to enjoy reading about the life journey, struggles, and achievements of Steph Curry as he makes his way to the NBA and as an MVP of the Golden State Warriors. The book is in no way an easy nor difficult read. It is written in a way that is suitable for all types of audiences. It shows all aspects of Steph Curry's life from his adherence to family through thick and thin, his faith, and of course, his basketball career. This book really focuses in on Steph Curry himself apart from the way media shapes him and the way we perceive him on our television screens. I would definitely recommend this book to any Golden State Warriors fan, Steph Curry fan, or even any fan of the NBA. No matter whether you are 10 years old or if you are 50, this book is a good read for anyone who wants to follow Steph Curry's progress as an NBA player and as a normal, everyday human.

Stephen Curry: Rise of the Star. The inspiring and interesting life story from a struggling young boy to become the legend. Life of Stephen Curry - one of the best basketball shooters in history. I downloaded this book for my son but I actually ended up reading this myself also. My son is a huge Golden State fan and his favorite player is of course Stephen Curry, he is only 10 but he is a big sports fan already. The book kept his interest and he could not put it down. He ended up telling me so much about it that it piqued my interest. This book is very inspiring, it is very well written and you actually feel like you are personally getting to know the real person behind all the hype. This book is about Stephen's rise to fame through his hard work and dedication. Not only is he an awesome ballplayer but an honestly good down to earth family man with values. He is a real person with real-life struggles like all of us. I would totally recommend this book to others! I did get this at a discount for a review of the product. I know a lot of people reading these reviews are very wary that everyone who does these reviews for products are just giving false positives. That's not the case with me, nor will it ever be. I have been an user for years and would not compromise my account or credibility for any product or person!!!

Even as a Cleveland Cavalier fan Stephen Curry has captured my interest with his quiet dignity and how he puts God first in his life. I have been fascinated by him, his wife and his adorable little girl since I watched the riding in the parade as Champions of the NBA. When the opportunity came up to read this book at a reduced cost for an honest review I jumped at it. Now after reading the book I

am even more intrigued with this Godly,great basketball player, father and husband this man has turned out to be. A must read for anyone believing in hard work to get where you want.

Very inspiring book about Steph.This is a good motivational book for young athletes to read and I would recommend it for that aspect alone.It really does show that you are not given things but have to work hard to get them.That hard work and dedication is shown in this book and is a very good read for a young athlete.Just look up videos of his workouts and off-season drills and you will see why he is successful.I love the humility in his life and his great work ethic and it is portrayed nicely in this book.

This book is a really inspiring story about basketball player Stephen Curry. I learned so much about Stephen's life and career from reading this book. As I progressed through the pages of this story I felt like I was right there with Stephen through every step of his basketball journey from high school to college to the NBA. I also appreciated how the author wrote about Stephen's life in such a simple and straightforward manner without filling the book with boring facts and statistics. I expected this book to be simply about Stephen Curry's career. What I discovered is that this is also a very inspirational story about an athlete who faced many challenges in his career and overcame every obstacle to become one of the greatest basketball players alive. I highly recommend this book for Stephen Curry fans of all ages.
