Ultimate Book Of Card Games: The Comprehensive Guide To More Than 350 Games

Synopsis

Classic and comprehensive, this guide to over 350 games is sure to appeal to all ages. From Bridge to Poker and Solitaire to Hearts, card games are a beloved source of entertainment and competition (and they are recession proof!). This authoritative book is ideal for every household, college dorm, family cabin, or neighborhood bar that has a pack of cards. Designed in the style of the popular Ultimate Bar Book, this essential resource provides the rules to dozens of variations of your favorite games, and a few you've probably never heard of (Bezique, anyone?). With simple instructions and clear illustrations to guide the way, this volume will be a welcome addition to any gamer's library.

Customer Reviews

This is a handsomely made book. And for the \$4 used book price I got my money's worth. It's a bit too terse for me, meaning, it does not go into enough detail. This book does not clarify enough of the rules to be very useful in learning the games if you're not already familiar with them. Each listing is more like a summary about the game, and does not go into any detail about the actual play or rules. Guess I'll get the official Hoyle, or Bicycle's, rules of card games books. Â Bicycle Official Rules of Card Games

This is a beautifully bound little book. I bought it as a present for my mother, who loves card games. We both loved the organization of the book into chapters based upon the number of players (as well as the helpful indexes). The book includes a wide variety of games and variations -- you won't easily get bored!

It arrived on time, as described by & manufacturer, it was shipped on time, arrived within prescribed estimates, the packaging was undamaged, and the product itself was unmolested and made with quality materials. A very thorough instruction manual for many card games I was unaware of. Great job and I would recommend.

This book is pocket sized and the print is so small you need a magnifying glass.

Purchased it as a gift along two sets of playing cards. However, the book is so nice and well made, I will be purchasing one for myself. The book itself is well bound, the paper is thick, and is very 'professional' looking. The instructions and writing is clear and easy to follow.

I bought this book as a gift. I loved that the card games were organized by number of players necessary. In all honesty some of the game instructions could be a bit clearer but still a nice reference to have. It was a hit with the recipients.

This book literally has everything. Easy to read. Loads of games. Beautifully bound. A bible of card games if you will!

Ever play a game and later can't remember the rules? This book explains thoroughly and effectively and covers many many games you forgot or want to learn.
