Customer Reviews

Arrived early and the baby enjoys this wonderful, sturdy little book. The baby loves the water and the book is a hit.

Cute little book, my 2 year old loves to look at and feel the pictures, and learns new words at the same time! The pages are nice and thick, easy to turn for young children, the pictures are simple yet colorful, and the textures in pictures make the book all the more interesting for the little ones!

My son loves this book!

the baby loves it and all the other touch and feel books

There is texture on 2 pages, and 3 pages that have cut-out where a texture should be but is missing. The other 7 pages that have shiny stickers. This is NOT a Touch and Feel Book.

Pictures include: Teddy in the bathtub with bubbles on his head, fish shaped soap bar, boat, rubber duck, whale bath toy, rubber frog, starfish towel, tooth brushes, swimming toy turtle, submarine, folded towels in a stack, teddy wrapped in a towel. The textures include terry cloth for the towels, foam mat for the rubber frog and duck, the rest are just sparkly paper with a little depression. Not as many textures as the other books in this series, but if your kid is all about bath-time books I am sure this will be a hit.

Like others have said this book has very few textures. Most are just the same shiny metallic paper. Two are almost identical rubber foam. Two are terry cloth material. This is by far the worst touch and feel book we have.

My niece requested touch & feel books for her 1 y.o. twin daughters. This sounded like just the thing, but although the book is of good quality & just right for a wee one, I think the "touch & feel" aspect fell short. Not very strong tactile sensations.
