Customer Reviews

I have to say at first I was skeptical of this book . It isn't my usual genera or what I normally get sucked in to or read. With that being said i was totally and utterly sucked in. Scarlett Night is my new favorite heroine! This book is one I will be allowing my own teens read. Which I usually dont let them read what I do. It was beautifully written. I can't wait to finish this series.

Dynamic duo authors apply a new twist cleverly inventing a new storyline for The Knights Templar and Nephilim mythologies. Events pacing made for a fast read with enough excitement to keep my interest as I developed an understanding of the way the writers craft their stories. I love the strong heroine, Scarlett who must develop into a new person quite quickly. The development of her character unfolds very fast in what could have been a longer book if the pace were slower. I personally like fully developed characters that I miss long after I finish one book and eagerly awaiting the next installment in the series. My first experience with the story ended too quickly, but left me wanting more. So I'll charge on to House of Ravens, I really hope the books get longer as the series grows.

The protagonist seems way too wise for a child in the beginning of the book, and too easily takes on a leadership position later in the story...BUT, if you want a quick plot, that's the trade off. The storyline moves along unbelievably fast at times, but there's some interesting action scenes, hints of romantic tension between characters, rivalry, and mystery regarding the bad guys. I think YA readers would enjoy this book if they like vampires, computers, and humans with special powers.

The court of Nightfall was an exhilarating book. I could not put it down. The first chapters definitely hooked my interest. The story line was great and the plot was wonderful. The characters were pretty good. I liked how there aren't too much characters and I like the fists and turns of the plot. I thought I knew what was going to happen but this isn't your usual happily ever after book where the guy defeats all that is evil and takes the girl away. I like how the main character isn't all innocent. She's an ember waiting to be a fire. I think the Authors created a wonderful stories that diverges away from the usual cliché and full of romance book. I would rate this as a rare piece. Mainly because of

the story. 'Angel Technology'? That's new. The story is not just the good guys vs. the evil guys, It has the hint of the good guys vs. the evil guys vs. the main character. Now this is the first book I've read by these authors. By these authors. I am looking forward to go in more journeys as well as solve mysteries with their books! Karpov Kinrade, you have high levels of skills and have displayed it by writing this AMAZING story. I can't wait for the next book ^.^

I loved this book! Cannot wait for the next one. I will be watching out for new things from this writing duo beyond this series as well. The above was when I read the book prior to the extension the authors did. I couldn't imagine how they might do it (I'm no writer), but I was very, very pleased with how it turned out. Though I loved the story the first time around because of the uniqueness of it (in my reading experience anyway), the extension provides so much more depth to the characters and story line. I find that I enjoy books that have a bit of real world grit to them as opposed to everything being sunshine and rainbows all the time where nothing bad ever really happens. I loved every bit of what was added and changed, and I'm even that much more excited about following the series than I was already. I can say even though I was a fan originally, there were a few things that I felt were a little unclear/confusing, and the extension took care of that as well. Can't wait for Daughter of Strife!! Although a re-read of House of Ravens is in order first along with my first pass at Night of Nyx and Song of Kai!

Court of Nightfall is about Scarlett Night, an eighteen-year-old, colorblind girl with big dreams of becoming an airplane pilot. Her life changes suddenly when her parents reveal that they have been working with the Church Vianney since before she was born and that they are in danger because they have been protecting a weapon that could destroy mankind. When danger strikes before the weapon can be moved, she loses everything and is thrust into a world she doesn't understand. In order to avenge her parents, she must trust carefully and protect the innocent at all costs. The story did flow wonderfully, however. I would recommend Court of Nightfall to older teens and adults that enjoy paranormal-fantasy and science-fiction novels. Overall, I am deeply impressed by the first book in this new series by Karpov Kinrade. I went in with different expectations of what I would find only to have my mind blown. Scarlett is easily one of my favorite characters from any of their works, period. She is so down-to-earth and so real. It was hard letting the book end. I wish I could have prolonged it and enjoyed the story for longer. I can't wait for the next in this series. As always, the author duo Karpov Kinrade does not disappoint. I love the raw urgency they injected into this story. It really puts the reader right into the action and leaves them hanging from the edge of their seat in

desperation and suspense. Absolute writing genius!

Spoiler alert!! I was really excited about this book and I enjoyed it up until the first fight. Then the story progressed much too quickly. Scarlett is all of a sudden running around and commanding people. There's no build up! It's just, bam! Here's this new person, let's trust them implicitly and give them all the power...got 67% of the way through and gave up. So disappointed.
