Math Made Easy: Combinations And Permutations

Synopsis

This book was written for 5 year olds and up to understand combinations and permutations. It teaches groups, ordered sets, how to multiply and divide, and how to cancel numbers from the numerator and denominator. It teaches factorials & how to find the factorial you need for the problem and how to calculate it. It also shows how to solve many addition problems at once by finding the combinations or permutations. It is colorful and interactive. Give your child or student a hands up on the math world and prepare them in fine style for a great mathematical future by teaching them this book! Do NOT call them from Las Vegas for gambling options. Bring the book with you. Dawn LaBuy-Brockett is a composer/writer, with many offerings on . Search for & to find all her works.
