Al-Muhaddithat: The Women Scholars In Islam

Synopsis

This book is an adaptation in English of the prefatory volume of a 40-volume biographical dictionary (in Arabic) of women scholars of the Prophet's hadith. Learned women enjoyed high public standing and authority in the formative years of Islam. For centuries thereafter, women travelled intensively for religious knowledge and routinely attended the most prestigious mosques and madrasas across the Islamic world. Typical documents (like class registers and ijazahs from women authorizing men to teach) and the glowing testimonies about their women teachers from the most revered ulema are cited in detail. An overview chapter, with accompanying maps, traces the spread of centres of hadith learning for women, and their eventual decline. The information summarized here is essential to a balanced appreciation of the role of women in Islamic society.

great

Dr. Nadwi employs the greatest mode of persuasion; not an argument through emphasizing a few exemplary cases, but rather clear demonstration by compiling a 40-volume dictionary containing the biographies of about 8,000 women scholars in the field of Hadith, Prophetic narration. In Islamic tradition, sacred knowledge is considered the highest form of authoritative currency, with its scholars being heirs of Prophet himself. We're shown that involvement in this most esteemed of spheres by women was not an exception, but rather a norm. This book, which is the English translation of the introduction of the dictionary, adeptly and eloquently introduces general concepts

in hadith studies and Islamic scholarship, and briefly explains some specific cases in Islamic law as well, through explaining the women scholars of hadith. Being a dictionary, it is recommended for use for even further research and synthesis into essays. For leaders of Muslim communities, parents, and students of Islamic knowledge (male or female), it's highly recommended.

Very well researched and scholarly. Not an easy read...
